## WHY JOIN?

Network In Action Intl. (NIA) is a progressive networking organization that helps members build business using the latest in technology such as a social media website and a custom app to share referrals.

Only one partner from each industry is allowed to join a NIA group which helps business growth from partner to partner, creating a synergy of referrals within the group. These referrals extend outside the group to create even more potential growth for your business.

NIA is the only organization of its kind where one person (Community Builder) will work full-time to ensure the groups success.

Today's business professionals are too busy for weekly networking meetings. NIA takes the hassle out of networking by utilizing technology and a monthly gathering, giving you more time in your business.
